Air Purifier BREEZE (AP-1018F)

USER GUIDE

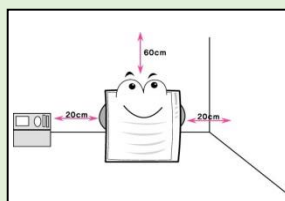

COWAY

WHERE SHOULD I PUT BREEZE?

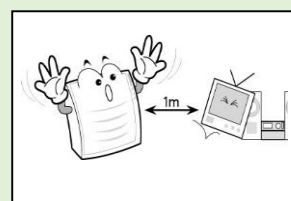

Pick an electrical source with the following in mind

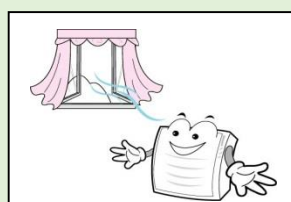

Place the product on a stable surface

Keep some distance from the wall

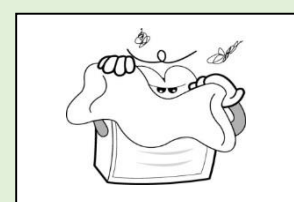

Keep some distance from electrical appliances

Do not place the product nearby open window

Do not touch the power plug with wet hand

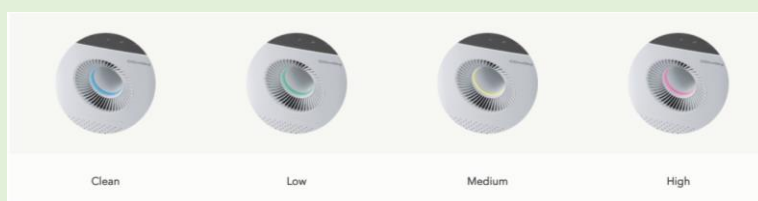

Do not put any foreign items on top of the product

RECOMMENDED SETTINGS FOR DAILY USAGE

AUTO MODE

In this mode, Breeze will automatically adjust its air flow level based on current indoor air pollution level, which can also be seen from the colourful LED indicator.

HOW TO OPERATE BREEZE?

CONTROL PANEL

① Power Button

Touch to switch on, touch for few seconds to turn off

② Mode Selection Button

Choose from
i) Auto Mode
- Fan speed based on current pollution level
ii) Turbo Mode
- Maximum speed for 10 minutes

③ Smart Eco Mode

Save electricity by stopping operation for 30 minutes if clean air is detected, and turn on when pollution level is high

④ Manual Air Cleaning Speed

- Choose from speed 1, 2 and silent (minimize fan speed for a quiet environment)

⑥ Light Sensor

Detect lights around the product for eco mode

⑤ Mood Light/Child Lock

- Turn pollution indicator on/off
- Press long to on/off child lock feature
